## THE POSITION – REPAIR TECHNICIAN - PRODUCTION

We are looking for someone to join our growing repair team at an exciting time in our organisation's history. Due to high growth, we have decided to grow our team by recruiting a repair technician to help with fault finding, assessment, service and repair of our products.

## COMPANY OVERVIEW - NAVTECH RADAR

Navtech Radar is a world-leading innovator, and multi-award-winning designer and manufacturer of commercially deployed radar solutions. Our ground-breaking technology is utilised by clients worldwide, across many industry sectors, from Perimeter Security Surveillance and Industrial Automation to Traffic Incident Detection on Smart Highways and as part of Intelligent Transport Systems (ITS).

As part of Halma plc, a FTSE 100 company, you will be joining a group of companies whose mission is to make the world cleaner, safer, and healthier.

## OUR WORK HEADQUARTERS

Our offices are nestled in the picturesque village of Ardington and Grove, South Oxfordshire, within an easy commute from areas of Reading, Swindon, Newbury and Oxford. The role will be based at our brand new state of the art Production facility in Grove Business Park, however travel to our Head Office in Ardington may be required occasionally as well as to Customer sites.

## OUR CULTURE, AND BENEFITS

We help create the right environment for our dedicated staff by providing a flexible, fun, friendly, and family feel. We are dog friendly and enjoy family, friends and group events. We have plenty of free parking for our employees and provide you with options to join colleagues on lunchtime walks, biking and other pursuits. We care about our staff, in fact, our culture is developed by them, for them!

## KEY ACCOUNTABILITIES

Initial diagnostics of incoming radar for repair including standard inspection testing and fault repetition:

- Repair of radar within agreed timescales based on customer service levels
- Testing (incoming, investigative, post repair)
- Maintaining clear investigation documentation with evidence on the ERP system
- Producing internal repair reports
